

ACTION

ROCK LOG STONE and TWIG

From January 29 to February 16

Please bring a **rock**, a **log**, a **stone** or a **twig** and leave your **gift** along the garden fence!

*The **rocks** will be used to border the beds; they will keep the soil from escaping during heavy rains as well as radiating heat stored from the sun throughout the night:*

The plants will appreciate having them!!!

*As for the **logs** and **twigs**, they will be semi-buried to create fertile beds.*

We will then be ready to sow!!!

CALIFLEURIE vous REMERCIE !!!

The Garden Committee
